Faronics

DEEPFREEZE™

CLOUD
Software as a Service

ABSOLUTE
WORKSTATION
INTEGRITY

CREATE SECURITY, MAINTAIN CONSISTENCY

Deep Freeze instantly protects and preserves baseline computer configurations. Regardless of the changes a user makes to a workstation, simply restart to eradicate all changes and reset the computer to its original state - right down to the last byte. Expensive computer assets are protected and technical support time is reduced or completely eliminated. Computing environments are consistently trouble-free, with 100% workstation availability.

Simple Web-based Console
Simple, yet powerful console that can be accessed anytime from anywhere.

Live Actions
Perform on-demand actions using a web browser or from a smart phone.

Zero Hardware Required
The hosted solution requires zero hardware investment, whilst ensuring high availability.

Rapid Deployment
Centrally deploy and manage computers within minutes using the built-in Deployment Utility.

Central Console for Window & Mac
Manage Deep Freeze Windows and Mac editions from a single platform.

Layered Security
Get comprehensive protection for airtight defense against threats using multi-layer protection.

Unified Control Center
Centralise and streamline management of computers, policies and deployment across different locations.

Deep Freeze has been providing trusted workstation protection since 1999. With over 9 million installations worldwide, Deep Freeze saves countless hours of technical support. 24 hours a day, 7 days a week.

DEEPFREEZE™
CLOUD

Web-based Console
Simple web-based console offers the power of cloud with no investment in expensive hardware.

Mobile App
Mobile app for iOS and Android to Freeze, Thaw and do more with your mobile phone.

Centralised Deployment
Deploy and manage computers within minutes from a single location using Deployment Utility.

User Role Management
Provide granular rights to your users. Assign them designated computer groups and physical sites.

Multi-Site Management
Centrally manage all Deep Freeze consoles across different locations using a single login.

Tags Management
Get organised by using tags, including location tags and support ticket tags.

Policy Orchestration
Centralise and streamline management of policy creation, deployment and management across workstations.

Deep Freeze
Patented reboot to restore solution available in a cloud based platform.

Usage Stats
Gain control of your IT asset inventory through intelligent reports and dynamic widgets to make smart IT decisions.

Software Updater
Automatically install and update 75+ popular products across all computers including those protected by Deep Freeze.

Application Whitelisting
Stop threats before they start using the ultimate application lockdown software based on hash value, digital signature and publishers.

Desktop Lockdown
Say goodbye to GPOs. Customise the configuration of your computer to perform only the functions you need and prevent any unauthorised usage.

Power Management
Intelligent Power Management with advanced monitoring and smart energy management without disrupting IT tasks or end users.

Anti-Bullying
Anonymously report bullying incidents from the computer and stand up against bullying.

Anti-Virus
Comprehensive protection with a combination of an award winning Antivirus, Anti-Spyware, Firewall and Web Filter.

Faronics™

Faronics develops and markets intelligent utilities for absolute control of multi-user computing environments. Faronics' market-leading solutions ensure 100% workstation availability and have dramatically impacted the day-to-day lives of thousands of information technology professionals and computing lab managers. Our user-driven, powerful technology innovations benefit educational institutions, libraries, government organisations, and corporations.
